# Acrylic Mirrors

- All decorating techniques for traditional glass mirrors can now be accomplished with acrylic providing for custom cut shapes, edge-lighting, frame-less designs, heat bent features, edge polishing and less risk of breakage.

- Direct high resolution 4CP digital printing, screen printing, 4CP screen printing, screen printed etch, transparent inks, foils, mirror washout with 4CP lithograph.

- Variety of frame options including wood, shape cut MDF, polyurethane foam, industrial style metal frame, gallery-style ornate frames.

- Custom wood frame profiles can be created or matched to an existing one.

- Branding on frame accomplished with screen printing, digital printing, laser engraving, and hot stamping.

- Short run time, quick turnaround with global sourcing.

# A-Frames and Sandwich Boards

- Decorating options include the following, direct-print high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air brushing.

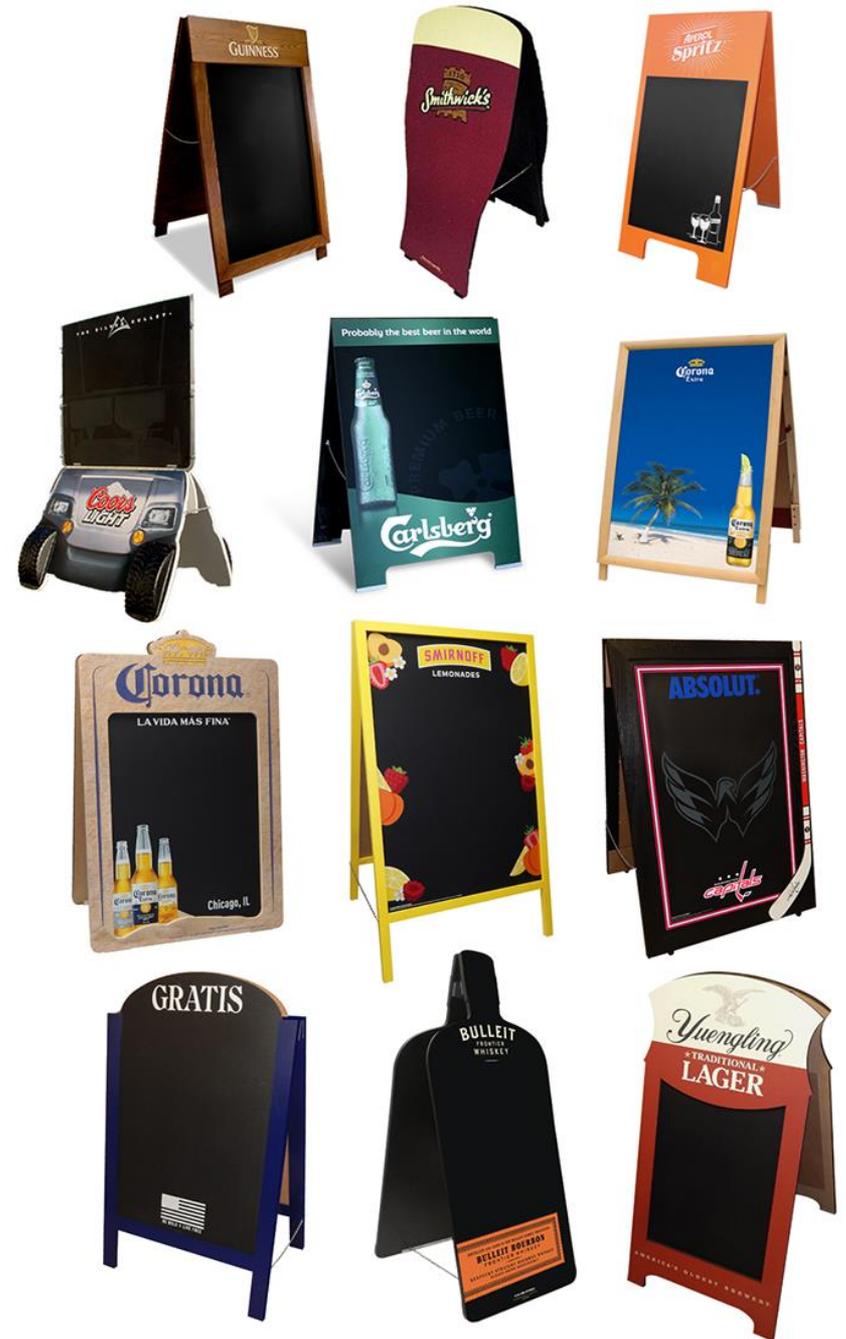

- Variety of frame options including wood, shape cut MDF, polyurethane foam, industrial style metal frame, gallery-style ornate frames.

- Custom wood frame profiles can be created or matched to an existing profile.

- Decorate and finish frames with antique crackle, glazing, antique, and hand-rubbed effects. Digital media players.

- Branding on frames accomplished with screen printing, digital printing, laser engraving, and hot stamping.

- Short run time, quick turnaround with global sourcing.

# Bottle Glorifiers & Product Glorifiers

- Glorifiers are designed to hold single or multiple bottles and/or a product like a shoe, etc. Can also showcase a brand.
- Can feature changeable magnetic graphics/art.
- Decorating options include: direct-print high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air brushing.
- Eco-friendly material options. Floor, wall or counter displays.
- Short run time, quick turnaround with global sourcing.

# Carved, Lasered & Formed

- To customize a unit the follow capabilities can be applied; v-carving, laser engraving and/or vac-forming, etc.
- Painted, printed, top-coated, stained, etc.
- 4CP high resolution digital printing.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Chalkboards & Whiteboards

- Decorating options include: direct-print, high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air brushing.

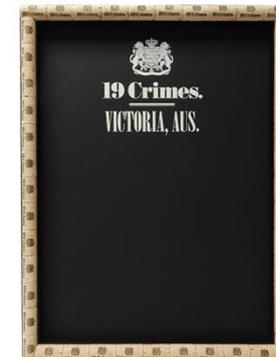

- Variety of frame options including wood, shape-cut MDF, Polyurethane foam, industrial style metal frame, & gallery-style ornate frames.

- Custom wood frame profiles can be created or matched to an existing profile.

- Decorate and finish frames with antique crackle, glazing, antique, and hand-rubbed effects.

- Branding accomplishment with screen printing, digital printing, laser engraving, and hot stamping.

- Short run time, quick turnaround with global sourcing.

# Clocks

- Choose from custom crafted wood, backlit, motion, digital, dual time zone, countdown, acrylic, glass, mirrored, analog, double level or custom shaped.
- Variety of frame options including wood, shape cut MDF, polyurethane foam, industrial style metal frame, gallery-style ornate frames.
- Custom wood frame profiles can be created or matched to an existing profile.
- Decorate and finish frames with antique crackle, glazing, antique, and hand-rubbed effects.
- Branding on frames accomplished with screen printing, digital printing, laser engraving, and hot stamping.
- Upgraded mirror options could feature illuminated LED areas, digital media player, clock, write-on area, double level graphics, infinity effects, bevels with many more ideas using our varied abilities.

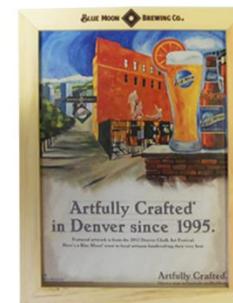

# Condiment Caddies

- Constructed of lumber, plywood and/or MDF materials with PETG lids/covers.
- Units can feature chalkboard writing areas, corner accents, bottle openers, clear lids, handles, etc.
- Condiments can be stored in food-safe bins, or in glass jars with lids.
- 4CP high resolution digital printing.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Poster Framing & Custom Framing

- Changeable graphic panels for wood, plastic, and metal frames.
- Custom wood profiles can be created or matched to existing profile.
- Decorate and finish frames with antique crackle, glazing, antique, distressed and hand-rubbed effects.
- Branding accomplishment with screen printing, 4Cp high resolution digital printing, laser engraving, and hot stamping.
- Choose from a variety of wood species. Rustic frames, sandblasted wood, and barn wood options available.
- Incorporated lighting with LED's and museum gallery-style lamps.
- CNC MDF or custom molded polyurethane for non-standard shapes.
- Customize and brand plain and simple digital photo frames/media players for higher impact.
- Personalization programs to decorate the frame and/or poster.

# Flight Trays | Serving Trays

- Units can be constructed of various lumbers and feature hog-outs to fit the brand's glassware.
- Add-ons can include chalkboard writing areas, insert cards, handles, decorative accents, etc.
- Direct high resolution 4CP digital printing.
- Laser engraving, PMS color matched painting, and top coating available.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Games | Novelty

- Corn-hole games, toss games, bar-top games, spinning wheel games, golf putting games, giant checkers, Adirondack chairs custom and creative game solutions.
- Decorating options include direct-print high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air brushing.
- Eco-friendly material options.
- Floor, wall, or counter displays.
- Short run time, quick turnaround.
- Global sourcing.

# Glow-LiteLED™

- Low cost, long running bright LED illumination.
- UL, cUL, CSA foreign power requirements supported.
- Single-sided vacuum-formed clear housing with PETG facing. The LED light shines out around the perimeter of the sign flooding the wall with a "halo" glow.
- 4CP high-resolution digital printing.
- Mold and tooling fabrication in-house.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# LED Lighted Signs

- Low cost, long running LED options.
- UL, cUL, CSA foreign power requirements supported.

Combine our fabrication talents and large variety of substrates to create high-impact hyper-custom lighted signs.

- Single-sided or double-sided options with glass, mirror, acrylic, polycarbonate, or vacuum-formed faces.

- Incorporate digital/analog and/or countdown clock options.

- Graphics include: 4CP, spot color, mirror, transparent Lenticular, laser-etching, and distortion printed vacuum-formed. Changeable graphic panels are available.

- Mold and tooling fabrication in-house.

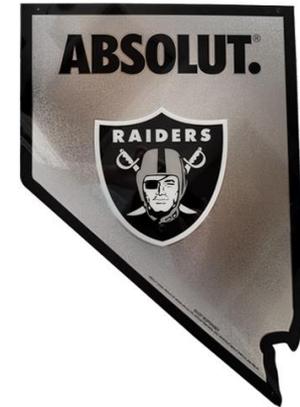

- Wide variety of frame options including wood, shape-cut MDF, polyurethane foam, industrial style metal framing, and ornate museum quality frame selections.

- Short run time, quick turnaround with global sourcing.

# Mirralar™ Mirrors

- Mirralar™ Mirrors are a glass alternative, in which the clear substrate is backed with reflective mylar to give it the reflective quality.
- Direct high resolution 4CP digital printing.
- Break Resistant Resin Mirror, can be created in any shape or size desired.
- Clear effect printing can be added to brand art for a reflective design element.
- "Mirrored" area(s) do not reflect subject perfectly, like a traditional glass mirror would.
- Short run time, quick turnaround with global sourcing.

# Mass Case Displays

- Cases are stacked on/around to create a large shopping footprint.
- Constructed of a variety of materials with custom shape headers, accents, lug-ons, etc.
- Units can be knock-down for easy shipping and includes detail instructions for in field assembly.
- Direct high resolution 4CP digital printing.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Napkin Caddies

- Constructed of lumber, plywood and/or MDF materials.
- Units can feature corner accents, base blocks, finger slots, brand adornments, etc.
- Holds 5"x5" cocktail napkins. Options areas to store straws, coasters, stir sticks, etc.
- 4CP high resolution digital printing.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Traditional Mirrors

- Direct high resolution 4CP digital printing, screens printing, screen printings etch, deep acid etch, crackle etch, transparent inks, foils, mirror washout with 4CP lithograph.

- Variety of frame options including wood, shape cut MDF, polyurethane foam, industrial style metal frame, gallery-style ornate frames.

- Non-breakable acrylic/plastic mirrors available as well.

- Custom wood frame profiles can be created or matched to an existing profile.

- Decorate and finish frames with antique crackle, glazing, antique, and hand-rubbed effects.

- Branding on frames accomplished with screen printing, digital printing, laser engraving, and hot stamping.

- Upgraded mirror options could feature illuminated LED areas, digital media player, clock, write-on area, double level graphics, infinity effects, bevels with many more ideas using our varied abilities.

- Short run time, quick turnaround with global sourcing.

# Pole Toppers & Case Stackers

- Units can be knock-down for easy shipping and include detail instructions for in field assembly and use.
- Decorating options include: direct-print high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air bushing.
- Custom toppers with die-cut shapes can be created.
- Constructed from a variety of materials including wood, MDF, metal, styrene, etc.
- Short run time, quick turnaround with global sourcing.

# Printing: Digital & Screen

- We screen print and digitally print directly on a variety of surfaces / substrates.

- Wood, Glass Panels, Ceiling Tiles, Floor Tiles, Doors, Frames, Acrylics, Form Board, Lexan, Sintra, Styrene, Canvas, Coroplast, Corrugated, Steel and Metal.

- Irregular surfaces and dimensions.

- High quality Epson pigment or digitally prints on a variety of medias such as canvas, transparent materials and/or photo stock substrates, etc.

- Mounting services available.

- Short run time, quick turnaround with global sourcing.

# Shape-LiteLED™

- Low cost, long running bright LED illumination.
- UL, cUL, CSA foreign power requirements supported.
- Single-sided vacuum-formed opaque housing with PETG facing.
- 4CP high-resolution digital printing.
- Mold and tooling fabrication in-house.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Tin Tacker Signs

- Constructed of aluminum and can be cut into a variety of custom shapes.
- Optional LED lighting is available behind pop-off elements, to create a “halo” lighting effect around the perimeter.
- Chalkboard writing areas can be applied.
- 4CP high resolution digital printing.
- Short run time, quick turnaround.
- Designed and manufactured in the USA.
- Global sourcing.

# Tem Permanent™ Displays

- TEMPermanent™ Displays are constructed of high-density foam and sculpted to any shape.

- Economical displays perfect for short-term needs or long-term use. High-end appeal and structural integrity to stay up indefinitely.

- Displays can be skinned with a variety of substrates including wood, styrene, printed graphics, metal, and more.

- Leverage realistic design components to strengthen your message.

- The additional coating of your choice makes the display stronger than you ever thought foam could be.

- TEMPermanent™ displays are a fresh design alternative to corrugated displays.

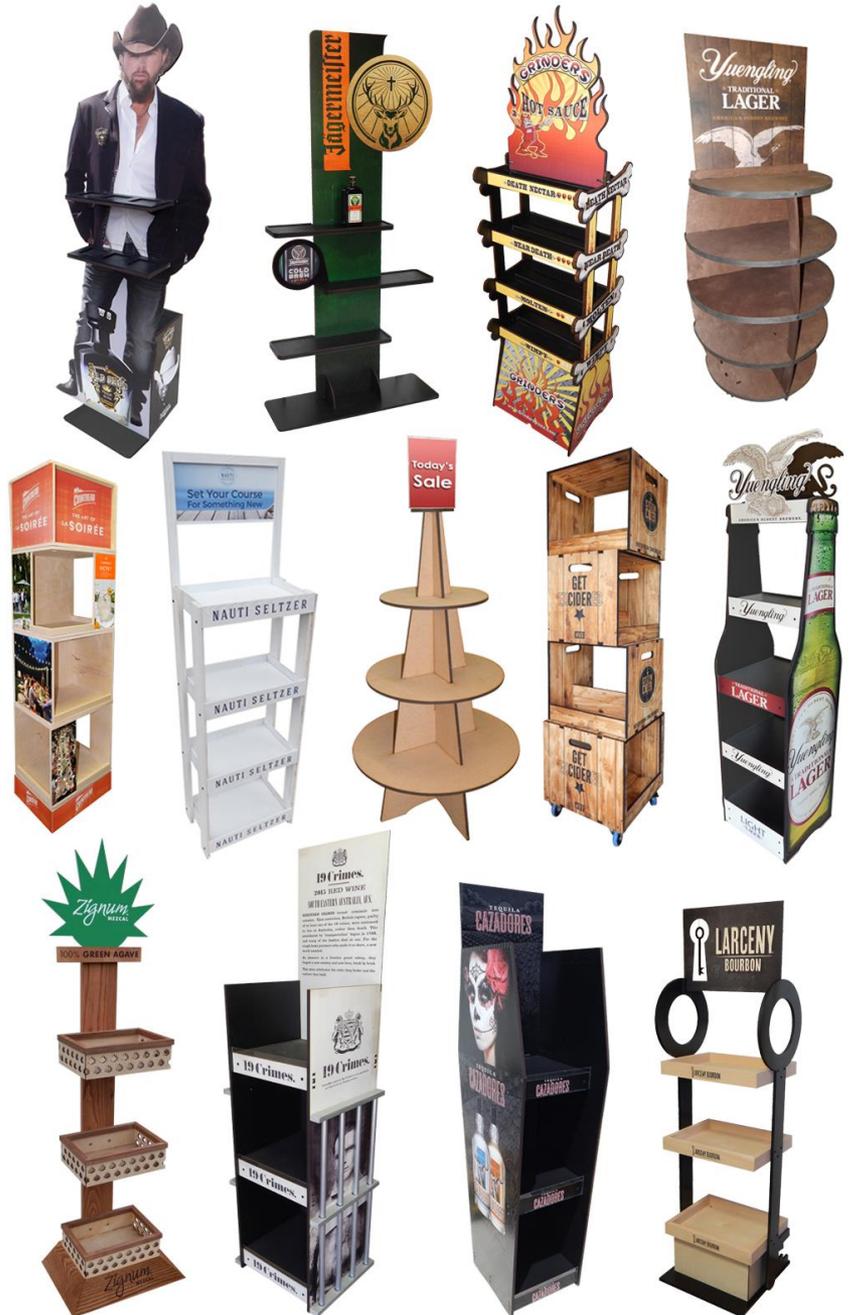

- The advantage of TEMPermanent™ Displays are being innovative, storing easily for re-use, holds heavy weight, lightweight, economical, ships compact, easy to assemble.

- Short run time, quick turnaround with global sourcing.

# Wood Displays

- Full wood shop and spraying facility on site.
- Decorating Options:
  - Direct-print high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air brushing.
- Can feature changeable magnetic graphics/art.
- Eco-friendly material options.
- Floor, wall, or counter displays.
- Short run time, quick turnaround with global sourcing.

# Write-On Boards

(Illuminated & Non-Illuminated)

- Decorating options include: direct-print high resolution 4CP digital printing, screen printing, laser engraving, hot stamping, sand blasting, air brushing.

- Variety of frame options, including wood, shape cut MDF, polyurethane foam, industrial style metal frame, gallery-style ornate frames.

- Low cost, long running LED options now available. (UL, cUL, CSA, foreign power requirements supported).

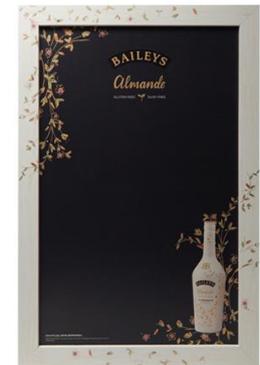

- Combine our fabrication talents and large variety of substrates to create high-impact hyper-custom lighted signs.

- Single-sided or double-sided options with glass, mirror, acrylic, polycarbonate, or vacuum-formed faces. Custom wood frame profiles can be created or matched to an existing profile.

- Decorate and finish frames with antique crackle, glazing, antique, and hand-rubbed effects.

- Branding on frames accomplished with screen printing, digital printing, laser engraving, and hot stamping.

- Short run time, quick turnaround with global sourcing.

Heritage Sign & Display, Inc. is a full-service Point-of-Purchase (POP) supplier serving high-profile retail brands across the U.S. and around the world. We leverage a complete range of in-house display design, development, and production capabilities to support and grow our clients' brand strategy and merchandising efforts.

Heritage Sign & Display maintains a broad client base, encompassing scores of well-known national and international brand names—many of these are long-term clients with whom we've established mutually beneficial relationships that have stood the test of time. Our clients' products range from soft drink bottlers, breweries and distilleries to producers of consumer electronics, apparel, athletic footwear, and everything in between.

The Heritage Sign & Display approach marries the best of the agency and production worlds; we strive to understand not only the subtle nuances of your brand strategy, but also the inner workings of the POP display production process. The result is quick-turn, high-quality display items produced right here in our Pennsylvania manufacturing facility.

Our mission is to provide an exceptional customer experience for our customers' effort to procure Point of Purchase signage and displays. This experience is larger than the products that we manufacture... it encompasses:

- The initial consultation
- Creative / Brainstorming
- Layout / Ideation delivery
- Quotations
- Prototype
- Production
- Fulfillment

Our focus includes efficient product design and value, quality, and on-time delivery with a responsive hands-on approach to customer service.

We are striving to add new and exciting products to our line of abilities which means adding novel technologies and equipment. Our direction is aimed at adding key creative thinkers to our crew to build the best products and customer experience that can be offered.

Heritage Sign & Display is an extension of your marketing department.

We bring the art, design, development, and production expertise needed to bring your POP display to life and augment your brand strategy.

We are responsive, competitive, local to the Northeastern US, and work tirelessly to ensure our customers' success.

**If your product is sold in a retail setting, Heritage Sign & Display is your source for P.O.P. display support. Semi-Permanent P.O.S. is our core competency including:**
